PROFESSIONAL SUMMARY

Motivated Computer Science and ITI graduate from Rutgers University with a strong background in web design and web development. Proficient in creating responsive, user-friendly websites and applications with HTML, CSS, JavaScript, and modern development tools. Able to work in data analytics with knowledge of Python and SQL to support data-informed decisions and enhance digital solutions.

EDUCATION

Rutgers University New Brunswick, NJ

May 2026

Bachelor of Arts, Computer Science Bachelors of Information Technology

Related Coursework: Data Structures, Design and Analysis of Computer Algorithms, Principles of Information and Data Management, Intro to Data Science, Information Visualization

GPA: 3.85/4.00

WORK EXPERIENCE

Edmund Optics, Barrington, NJ

June 2024 – August 2024

Information Systems Intern

- Developed and maintained front-end and back-end features for the company's gamification platform, including new components, functionality, and removal of dead code.
- Identified and resolved system vulnerabilities that could allow employees to exploit the point system.
- Built an automated achievement system that evaluates employee qualifications and awards eligible achievements on an annual schedule.
- Documented the platform's gamification features and presented the project to the CEO and HR teams.
- Skills:** ASP.NET MVC, C#, SQL, HTML, CSS

Edmund Optics, Barrington, NJ

June 2025– August 2025

Information Systems Intern

- Developed a training update system and automated KnowBe4 achievements using its API.
- Collaborated with teams across the company to identify and remove unnecessary training courses.
- Built an annual course review system requiring training managers to review their assigned courses, with penalties for missed deadlines.
- Tested the training system and documented processes to improve usability for future employees.
- Skills:** ASP.NET MVC, C#, Report Builder, SQL, HTML, CSS

PROJECTS

Ecommerce Website

June 2026 – Ongoing

- Developed and designed a full-stack e-commerce application using React, Tailwind CSS, Node.js, Express, and MySQL.
- Implemented user authentication, shopping cart functionality, and checkout.
- Currently integrating Stripe API for payment processing.

Data Science Research Project

February 2025 – May 2025

- Research question: what is the relationship between sleep quality and screen time before bed?
- Cleaned and preprocessed data using Python pandas and numpy.
- Visualized the data using graphs and used a linear regression model to predict the relationship and compare the slopes between relevant fields.

SKILLS

Language: Fluent English, Conversational Chinese

Coding Languages: Python, JavaScript, C#, HTML, CSS, SQL, Java, C

Frameworks & Technologies: React, Node.js, Express, ASP.NET MVC, JDBC, JSP, Report Builder

Database: MySQL, SQL Server

Design Software: Figma, Clip Studio Paint, Adobe After Effects, Procreate, Tableau

CERTIFICATES

Creative X Labs

- Worked with a group of 4 for a semester in order to create an app prototype for Rutgers University's Creative X club.
