EDUCATION

Rutgers University New Brunswick, NJ — August 2026

Bachelor's of Arts, Computer Science

Bachelor's of Information Technology

Related Coursework: Data Structures, Design and Analysis of Computer Algorithms, Intro to Data Science, Information Visualization

GPA: 3.85/4.00

WORK EXPERIENCE

Information Systems Intern - Edmund Optics, Barrington, NJ — June 2025- August 2025

- Developed a training update system and automated KnowBe4 achievements using its API to enhance employee experience.
- Collaborated with teams across the company to identify and remove unnecessary training courses.
- Built an annual course review system requiring training managers to review their assigned courses, with penalties for missed deadlines.
- Tested the training system and documented processes to improve usability for future employees.
- **Skills**: ASP.NET MVC, C#, Report Builder, SQL, HTML, CSS

Information Systems Intern - Edmund Optics, Barrington, NJ — June 2024 - August 2024

- Developed and maintained front-end and back-end features for the company's gamification platform, including new components, functionality, and removal of dead code.
- Identified and resolved system vulnerabilities that could allow employees to exploit the point system.
- Built an automated achievement system that evaluates employee qualifications and awards eligible achievements on an annual schedule.
- Documented the platform's gamification features and presented the project to the CEO and HR teams.
- **Skills**: ASP.NET MVC, C#, SQL, HTML, CSS

PROJECTS

Ecommerce Website — August 2026 - Ongoing

- Designed and developed a responsive e-commerce website with an intuitive shopping interface, product listings, and interactive features to enhance the user experience.
- Built reusable frontend components and implemented dynamic product displays, shopping cart functionality, and streamlined navigation.
- Integrated frontend and backend functionality to support product data management and a seamless shopping experience.
- Technologies: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, RESTful APIs

Portfolio Website — September 2026

- Designed and developed a responsive personal portfolio website to showcase software engineering / UIUX projects, technical skills, and professional experience.
- Developed and integrated a local AI-powered chatbot to provide an interactive experience, allowing visitors to ask questions and learn more about my background, skills, and projects.
- Built reusable React components, interactive UI elements, and responsive layouts to deliver a seamless user experience across desktop and mobile devices.
- Technologies: React, TypeScript, Tailwind CSS, JavaScript, Node.js, Express.js, HTML5, CSS3, Vite, AI Chatbot Integration

Financial Technology Website — October 2026

- Designed and developed a full-stack financial management application that enables users to track income, expenses, budgets, and savings goals through an interactive dashboard.
- Built RESTful APIs using Node.js and Express.js to support CRUD operations, integrating MySQL for persistent data storage and management.
- Implemented secure user authentication and session management using Argon2 password hashing, Redis, and HTTP-only cookies.
- Developed responsive, reusable React components and interactive data visualizations using Recharts to display financial trends, spending patterns, and budget insights.
- Technologies: React, TypeScript, Tailwind CSS, Node.js, Express.js, MySQL, Redis, RESTful APIs, Recharts, Vite, Zustand

SKILLS

Language: Fluent English, Conversational Chinese

Coding Languages: Python, JavaScript, TypeScript, C#, HTML, CSS, SQL, Java, C

Frameworks & Technologies: React, Node.js, Express, Zustand, TailwindCSS, ASP.NET MVC, JDBC, JSP, Report Builder, RESTful API Development, CRUD Operations

Database: MySQL, SQL Server

AI & Development Tools: AI Agent Use, AI Assisted Coding, Git, GitHub

Design Software: Figma, Clip Studio Paint, Adobe After Effects, Procreate, Tableau
